

CONTRIBUTION FORM

As one of only four fully independent donor advised fund platforms (out of over 3,500+) in the United States of America, and the only Donor Advised Fund Platform founded by and whose executive director is an African American, the SDG Impact Fund has quietly become one of the most innovative and forward-thinking leaders in regenerative philanthropy in the world.

We choose daily to think, see, and feel into our decisions as to how to be of the highest and biggest use to the world. This carries into and throughout our “work.”

We have served in every continent at the highest levels of philanthropy and hybrid and creative financing; frontier and digital technology deployment; innovation, incubation and ecosystems delivery; creative story telling and media; and network and systems facilitation and design for regenerative impact solutions at global, regional, and local levels.

Our team has campaign experience with capital projects, hybrid financial structuring, grant writing, mobile giving, annual giving, planned giving, major giving, principal giving, and board and governance development for some of the world's most respected nonprofits, impact investing and development entities, corporations, government and academic institutions, and private families and individuals. Working across diverse multi-stakeholder and complex fundraising and hybrid finance campaigns has enabled our team to master a wide range of transformative giving strategies, and to build a community of trusted expertise and collaboration around the world to bring our flourishing future into now.

We bridge the worlds of charitable giving and catalytic finance and put the full legal parameters of donor advised funds to work to make giving joyful, flexible, regenerative and transformative.

We invite you to join in a new journey of regenerative philanthropy.
